ABOUT ME

I'm a results-oriented Frontend Developer with 3+ years of experience building user-centric and performant web applications. I possess a strong expertise in modern JavaScript frameworks like React.js, Next.js and Angular. I'm adept at writing clean, maintainable code and thrive in collaborative environments, adapting seamlessly to various product development methodologies like Scrum and Agile.

EXPERIENCE

SOFTWARE ENGINEER, Akure, Ondo

Glimere, March 2023 – 2024

- Wrote style guidelines for client-facing applications developed by cross-functional teams
- Tested new features for bugs or defects to verify proper working order
- Integrated third-party libraries and APIs into existing applications for improved functionality
- Used version control systems such as Git to manage source code repositories in a team environment.

FRONT END DEVELOPER, Dallas, TX

Core Outreach Services (CORS), August 2022 – August 2023

- Provided ongoing maintenance support for existing projects after deployment
- Identified and resolved browser compatibility issues across different devices and browsers
- Translated flat design files to clean, accessible and interactive user experiences.
- Developed and maintained user-facing websites using ReactJS.

FRONT END DEVELOPER, Minna, Niger

JD Lab, December 2021 – January 2023

- Optimized website performance by reducing page load time and improving the efficiency of AJAX requests
- Collaborated closely with the back-end developers to integrate API calls

SKILLS

Languages

JavaScript

Typescript

Libraries

Redux Toolkit
