Hello, my name is Joseph, and I'm a full-stack developer. After pursuing a BA in linguistics for three years, I discovered my passion for coding and never looked back 🕒. I enjoy building UIs from the ground up and bringing them to life with clean, efficient code 📱🌟.

My expertise lies in ReactJS, React Native, NodeJS, SQL, and various styling tools such as Bootstrap, Tailwind CSS, Sass, and CSS 🛠️. I'm also familiar with Git and can manage code versions and branches with ease.

As a lifelong learner, I'm always expanding my skillset and currently exploring Flutter 📱. I believe that technology can create a better future, and I'm excited to be a part of that vision 🌟.

Personal Details

Currently Employed: Yes

Date of Birth: 1999-03-24
