## EXPERIENCE

### Glimere — Fullstack Developer

January 2023 – June 2023

- Developed and maintained the Glimere fashion technology platform, leveraging a full stack of modern technologies and frameworks.
- Built and maintained server-side APIs and database systems to support scalable and secure data management.
- Utilized version control systems, such as Git, for efficient code management.
- Contributed to the growth and success of Glimere, playing a key role in shaping the future of the fashion industry through AI and AR technology.

### Core Outreach Services — Frontend Developer

November 2022 – June 2023

- Developed and implemented responsive and user-friendly web interfaces for Core Outreach Services' web-based applications, ensuring seamless user experiences.
- Implemented frontend functionalities, and interactive features, to provide a rich and engaging experience for users.
- Assisted in optimizing web applications for speed and scalability, utilizing performance optimization techniques and tools.
- Contributed to the continuous improvement of development processes and workflows, suggesting and implementing enhancements for increased efficiency and code quality.
- Worked closely with backend developers to integrate frontend components with backend services, ensuring seamless data flow and efficient application performance.

### JD Lab (An EduTech Firm) — Frontend Developer

Dec 2021 – November 2022

- Upgraded JSP (JDLab School Portal) with a redesigned UI by implementing all major and minor components of the Student and Application Portal with a new, modern, and user-friendly interface, improving the user experience and making it easier for students and staff to navigate.
  - Handled all major user interactions and functionalities for students such as payments, results, and admission and ensuring a secure platform
- Languages: JavaScript, HTML5, CSS, ReactJS, Bootstrap, Styled-Components
- Tutored Students on Frontend Development Courses.  
Handled Classes in JDLab Summer Camp

### Joltagon — Fullstack Developer and Design Expert

March 2019 – Present

- Created and developed the branding and design studio, specializing in brand identity, graphic design, and web design services
- Led a team of designers and managed all aspects of the business, including client relations, project management, and financials
- Worked closely with clients to develop and execute branding strategies, resulting in increased brand awareness, customer engagement, and revenue growth
- Designed and delivered creative and effective brand identities, including logos, typography, color schemes, and visual elements, that accurately reflected clients' values and goals
- Designed and developed visually appealing and user-friendly websites and digital assets that provided an optimal user experience and drove traffic and conversions
- Maintained a strong understanding of industry trends, best practices, and emerging technologies, ensuring Joltz Studio remained at the forefront of design and branding innovation.
